THIS IS UNEVALUATED INFORMATION

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF
U.S.C. 51 AND 53, AS AMENDED. ITS TRANSMISSION OR THE REVELATION
OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PRO-
HIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

25X1

1. In January 1955, the Deutsche Post prepared a new distribution plan for the distribution frame Vh 53 in Karlshorst, status of mid-January 1955. The distribution frame contains Soviet and KVP-owned cables. The plan referred to the KVP school as an engineer school. In early January, the engineer school, in addition to KVP, still quartered Soviet personnel.
2. A tap-proof switching arrangement with No.55 00 10 was installed at the Karlshorst switchboard (VST W 55). Four connections of this type have been put in operation so far. All details and sketches of these connections were handled as secret material. If called, the holder of the number answered with his number and asked for the caller's number.
3. In mid-November 1954, the Soviets in Karlshorst took charge of all 7 to 8 cables between distribution frame Vh 50 and the Pioneer Kaserne on Zwieselerstrasse, which was later to be provided with a German tube cable. A 700-core cable was to be laid from distribution frame Vh 50 the Pioneer Kaserne. After the evacuation of the installation by the Soviets was completed in December, the installation had been turned over to the KVP.
